

TICKETS@PHONE®

Your tickets are calling

Send paperless, barcoded tickets directly to your customers' mobile phones. Tickets@Phone are redeemed at your venue directly from their mobile phone display through the use of a bar code scanner.

Features and Benefits

Direct delivery

Customer convenience.

Sell tickets directly from your website for delivery to your customers' mobile phones.

Mobile phone scanning

Fast entry.

Scan the unique barcode on the mobile phone display at an access control scanner. The customer can go straight to the gate and present their Tickets@Phone "ticket" for admission.

Increase revenue

Improve sales.

Sell tickets up to the last minute from your website. Extend the reach of your box office.

Digital tickets

Increase your efficiency; reduce operational costs.

Tickets@Phone "tickets" are far less expensive than printing, handling, and mailing a paper ticket.

Built-in security

Reduce scalping.

Tickets@Phone contains a unique, personally identifiable barcode that is unable to be transferred like a paper ticket.

Real time tracking

Improve marketing data.

Barcodes enable venues to track attendance automatically and in real time.

Ticket safeguard

Eliminate worry.

Since most carry their mobile phones all the time there is no way they can forget their tickets! If the customer accidentally deletes their ticket messages they can have them resent by texting a code back to the ticketing system.
