

EVENT TICKET INSURANCE

Giving your customers peace of mind

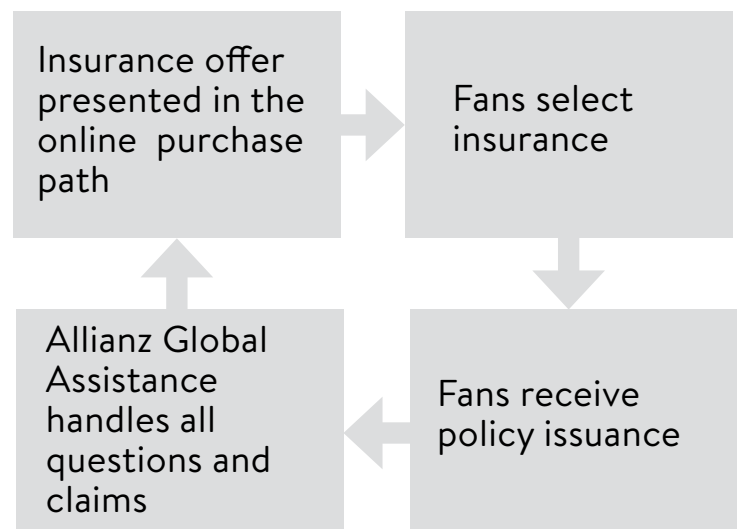

Together, let's sell more tickets in advance and strengthen customer relationships! Your customers can guard against unforeseen circumstances by opting to add ticket insurance during checkout. If a covered incident were to happen, 100% of what the customer paid, including taxes and fees, will be refunded to them. **We got you covered, literally!**

HOW IT WORKS

Ticket insurance promotes goodwill with customers and drives earlier purchase decisions as well. Patrons will feel more secure in their financial investment, which directly leads to buyer loyalty, and encourages future business with the customer. **It's that easy!**

1. As your customers purchase their ticket(s), an offer for Event Ticket Protector will be **seamlessly presented**.
2. Payment is made directly to Allianz Global Assistance (credit card information does not need to be resubmitted), Allianz issues the policy and handles all claims.
3. Allianz Global Assistance offers a **24/7 call center support** to handle customer claims.
4. In addition, comprehensive **self-service tools** are provided by Allianz Global Assistance allowing your customers to complete 100% of their claim online.

Event Organisers never have to take on any financial liability or get involved in claim management.
